

M/B CTD 4X12+4X10

STONE ARCHITECTS | LINE 6 HELIX PATCH

DETAILS

Please be sure you've updated both your Helix firmware, and HX Edit software to their latest versions before installing this patch.

This patch is set up as "Stomp/Snap," to change this go to "Global Settings" and select "Footswitches" and change "Preset Mode Switches" to whatever you like best.

Footswitches 2-5 (Bypass): Clawthron Drive, Ubiquitous Vibe, Tape Echo, '63 Spring

Footswitches 8-11 (Snapshots): Dirt, Fuzz, Dirt+Fuzz, Drt+Fuz+Oc

SIGNAL FLOW

As with all of Tone Architects' Helix Patches, we use stock Helix amps & cabs. No IR's necessary! There's still plenty of DSP headroom on path 2, so you can add more of your favorite effects if you wish. You can view parameter settings for this patch [here](#).

Input: Guitar (with Input Gate)

Volume: Log Curve (EXP 2)

Dynamics: Vetta Comp - Legacy (always on)

Wah: Weeper (EXP 1)

Distortion: Clawthorn Drive (FS 2)

Amp: Cali IV Rhythm 1

Modulation: Ubiquitous Vibe - Stereo (FS 3)

Cab 1: 4x12 Cali V30

Cab 2: 4x10 Tweed P10R

Delay: Tape Echo - Legacy, Stereo (FS 4)

Reverb: '63 Spring - Legacy, Stereo (FS 5)

THANK YOU!

I hope you enjoy my Helix patches! Please feel free to reach out anytime at orders@thetonearchitects.com if you have any issues, questions, suggestions, or requests.

Rock on,

Jeremiah Panich
